

# The Miner.

T. J. Butler, Editor.

FRIDAY, NOVEMBER 19, 1875.

All accounts for advertising and subscription which became due on or before the first day of February, and all bills for legal advertisements which appeared in the Miner prior to that date are payable to John H. Marion. All accounts accruing since that date are payable to T. J. Butler, the present proprietor.

## JUDGE DUNNE.

That the removal of Judge Dunne will be effected we have no doubt, and that his course in opposition to our public school system will have been the cause of it we have as little doubt; for aside from his bigotry in religious matters as against secular education, we have failed, with all the bluster that has been made about it, to see where he has been remiss in his duties as a judge.

With reference to the schools, he has outraged the sentiment of the intelligent portion of the people of the Territory and of the country. He has done so in the face of the earnest protestations of his best friends, and now must take what it brings. Had he taken an enlightened and progressive view of the educational question, as was his wont elsewhere, no man had fairer prospects for preferment and lasting popularity. Fortunately for humanity, his efforts to break down secular schools has proven unavailing, and, though a man of splendid legal attainments goes down instead, it is far better that one man should perish in his reputation than that a whole future population should be doomed to a life of ignorance and superstition. Those who have looked on from a distance and viewed the matter dispassionately have come to a right conclusion. The San Francisco Alta arraigns our Chief Justice on precisely the same grounds maintained by the Miner, throughout this controversy, viz: His opposition to public schools maintained by the Territory and free alike from Protestantism, Catholicism, Spiritualism, Mormonism, Judaism and all other religious isms, where the children of the rich and the poor shall have an equal chance to receive a good common school education.

The Alta of Oct. 30th, had an article, which we find too long for our present purpose, discussing the matter, and in its issue of Nov. 6th occurs the following:

"We have heretofore expressed our opinion that E. F. Dunne, Chief Justice of the Supreme Court of Arizona, should be dismissed from his office to make room for some other man better fitted for the place; and this article is written as a solicitation to be sent to the Attorney-General of the United States, whose Department includes the Federal Judicial offices. We present the following reasons for this application:

First—On the 2d of February, Judge Dunne delivered a public address at Tucson, denouncing the Territorial Public School Law, upon the validity of which he might be called upon to decide judicially. It is not proper for a Judge to become a partisan in such matters, and any disregard of that rule of propriety is a good reason for dismissal.

Second—Justice Dunne, in the course of his address, said "the State has no inherent right to teach." That is a denial of the right of the States to maintain schools. He thus declares himself openly the enemy of one of the fundamental principles of the American Government.

Third—We believe the majority of the Republicans and Democrats of the Territory desire the dismissal of Judge Dunne."

WHITE MOUNTAIN INDIANS.—It appears from the statements of those who have the best opportunities for knowing that the removal of the white mountain Indians from Apache to San Carlos is very incomplete. In fact we have been furnished by a friend there with the following statement of the number still remaining at Apache who refuse to go, and who say they were promised by General Howard that that should be their home forever, so long as they behaved themselves. He says there are eight of the largest bands, still there and that they number in the aggregate between 900 and 1,000, and as there were only 1,800 all told, he thinks with those off in the Pinal and elsewhere Mr. Clum must have a very small number of White Mountain Apaches at San Carlos. Those at Apache are clamorous for rations to which they believe themselves entitled, but prefer to go without and make their own living by hunting and gathering nuts and seeds, rather than go to the low lands and run the risk of sickness in a country and climate to which they are not accustomed.

They want to remain in the mountains where they were born. It is the land they love.

THE California papers received on Monday bring news of the death of Mayor James Otis, of San Francisco Nov. 4, which our press dispatches failed to chronicle. Mayor Otis was born in Boston in 1827, came to California in the early days as a member of the firm of Macdonald & Co. He held many honorable positions all of which he has filled to the entire satisfaction of his constituents and dies regretted by the entire people of San Francisco and the State. W. J. Forbes editor of Measure for Measure, at Battle Mountain, Nevada, also died recently at that place, and no mention was made of it in the dispatches. Mr. Forbes was well known as a witty and crisp writer, having gained quite a reputation in that line. He began his editorial life in Downsville, afterwards he removed to Humboldt, Nevada, and published the Register at Unionville, then the Tresspass at Virginia, the White Pine News at Hamilton, and finally the Measure for Measure, at Battle Mountain, where he died suddenly, having been found dead in his bed.

Hail has been falling on different parts of California for the past week.

## Marion's Sheep Ranch.

We announced the completion of buildings etc., a few issues ago, but return to the matter again because we have been there and examined the premises since the mention alluded to, and because we really regard the place as a model sheep ranch, model is hardly the word either, because others cannot follow it, unless they can build mountains for shelter, hollow out streams, supply them with water, cover hill, mountain and mesa with the richest quality of grass for from ten to fifteen miles in all directions, and surround it all with a belt of country entirely destitute of water, thus practically keeping all other stock away. Granite creek which for miles is entirely dry rises just above the barn and runs by the premises in a bold strong stream at all seasons of the year, and again hides itself in the sand for a mile or so until it mingles its waters with those of the Verde, which flows for a long distance through an almost inaccessible box cañon. His stable, chicken house, cow and sheep corrals, etc., are about finished, and are very complete, though some additional sheds will be necessary for winter.

His residence, is situated on an elevation above the creek, though hidden away down in a cañon and surrounded by high mountains, is built at a cost of some \$3,000, and has all the modern conveniences of a suburban villa. The main building is 32x32. A partition runs through it from east to west in the center, leaving two rooms on the north side, each 16 feet square. These are the parlor and sitting room, the latter having a fireplace, is richly carpeted and elegantly furnished. In the parlor, which is also the library and office, are desks, cases etc., all conveniently arranged. The balance of the building is cut up into bedrooms, kitchen, pantry, etc. A well at the southeast corner of the kitchen, and connected with it by a snug little porch, supplies the place with pure water, and immediately to the east of the well is a stone cellar, built partly above and partly below the surface of the ground. An excellent road over the mountain to Mr. Banghart's place in Chino Valley, a distance of a mile and a half, has just been completed, so that Mrs. Marion and the young General can go back and forth to visit the old folks at pleasure, the youngster is not quite old enough to make it on foot, as yet, but from the rapidity with which he sails over the floor the chances are that it will not be long before he will have to be caged to prevent his running away and visiting his grand parents without the consent of his immediate guardians.

The sheep, except ten old patriarchs of the flock, were out on the range, and of course we didn't see them, but they are some 2,500 in number and in a fair way to make their owner rich. One old grandfather of a numerous progeny, "Moses" by name, asserts supreme omniscience over the realm, and by way of showing us his authority gave the proprietor a jolt in the stomach with his head which made him hasten out of the corral and beg Moses' pardon for intruding on his domain.

## Pima Items.

From the Tucson Citizen of Nov. 6th: Sergeant Boutelle informs us that the line between Camp Apache and Grant will be completed in about thirty days. The poles are all up and all the wire strung with the exception of fifty miles south of Goodwin. The wire for this part of the line is expected to arrive this month. Lack of material, heavy rains in the mountains and the rocky nature of the country, delayed this work a great deal. The line to Camp Grant is now completed, and communication will be had with that post next Monday.

Owing to a mistake in not getting a right-sized auger, work on the arisian wells is temporarily delayed, but steps are taken by telegraph to remedy the matter as quickly as possible.

A rumor prevails that a new military post is to be established near the Sonora line at the head of San Pedro river. Near the national boundary is the proper place for the troops in times of internal peace.

The Sonora authorities claim that armed organizations to aid the revolutionists in Sonora, are being affected in Tucson. In this as in almost everything those authorities do and say, they are wrong. Individuals, mostly citizens of Sonora, singly and in parties, small in number, have always passed to and fro between Tucson and Sonora, and they seldom ever go unarmed. In the latest disturbed condition of Sonora, which embraced a couple of forced contributions of money, by government, the movements of Sonora citizens back and forth have been more than noticeable; but as to any special organizations in Tucson, as claimed by Sonora, there are none.

Sergeant Phaedrus finished his work in Tucson Thursday and yesterday went to Camp Lowell to adjust the Signal Service instruments at that point, after which he will go to Phoenix, Wickenburg, Prescott and Verde and complete his work in Arizona and return to San Diego.

The Court-house, jail and County Records fronts present a very tasty appearance since the painter has been at them, in accordance with the orders of the Supervisors. The doors and windows, including their casings, are very neat in their new coats of paint.

E. B. Pomroy, United States District Attorney, returned from Prescott on Thursday's stage, whether he has been for several weeks on official business. He expressed himself highly pleased with his reception by the Yavapais.

The "Old Mine" company are taking very rich ore out of the Old Mine, and are putting up an extensive furnace at their Ostrich mill.

A man by the name of Edmond Ronayne, Past-Master of Keystone Lodge, No. 639 A. F. and A. M., Chicago, having been expelled from all the rights and privileges of the order for unbecoming conduct, is trying to get even by travelling over the country lecturing against masonry and illustrating his lectures by pretending to confer the three symbolic degrees in public. His must be quite a show. "By jove he beats the great magician."

## BY TELEGRAPH.

(Special to the Miner by U. S. Military and W. U. Lines)

New York, Nov. 12.—The Graphic's special dispatch from Washington, says that it is believed that the President's message in reference to the Cuban question will give no uncertain sound. The country will be prepared for a vigorous policy in dealing with Spain in regard to Cuba. Negotiations are known to be in progress between representatives from Cuba, Porto Rico, San Domingo and Hayti, looking to a plan to unite them under one government as soon as Spain, either through diplomacy or war, relaxes its hold upon Cuba and Porto Rico.

Victoria, Nov. 12.—Rev. Father Braban, the Roman Catholic missionary, recently wounded by the chief of an Indian tribe on the coast of Vancouver Island, arrived to-day in the war ship Rocket. The Priest, though suffering severely from a gunshot wound in the hand and a second one in the back which latter it was thought would prove fatal, is mending slowly with chances of recovery.

San Francisco, Nov. 15.—The city was visited by a sharp shock of earthquake at ten minutes to eight last night, which continued nearly seven seconds.

A. J. Bryant, president of the Pacific Jockey Club, says the chances are that the big race will not come off before Thanksgiving. No attempt will be made to run until the track is in perfectly good order.

New York, Nov. 15.—The wool market has been unsettled, owing to several failures among manufacturers. The effect of these failures has been demoralizing upon the trade generally.

San Francisco, Nov. 15.—Gold in New York, 114 3/4 and 114 1/2. Greenbacks in San Francisco, 86 1/2 and 87 1/2.

Washington, Nov. 15.—Vice President Wilson continues to gain strength rapidly.

Brownsville, Texas, Nov. 15.—The federal grand jury in their report say that from Brownsville to Pecos, a distance of 600 miles in length, American rancheros have been ordered to leave their homes by Mexican raiders on pain of death, and that one hundred thousand head of stolen cattle are driven to Mexico annually by Mexican marauders. A number of federal officers have been assassinated, post offices burned, custom houses robbed, mail carriers and inspectors of customs killed while in the discharge of their duties, and the perpetrators of these crimes have gone unpunished. A feeling of general insecurity of life and property prevails on the border.

Montreal, Nov. 15.—The Guildard funeral takes place to-morrow. The Commissioner of the Dominion police, has ordered out the military to the number of 965; men all this force will be required as some five thousand people are expected in the cemetery and though the troops have received orders to keep all persons out of the grounds who have no business inside, the order can only be a dead letter. All members of the Institute Canadienne will go up heavily armed. The feeling of the people is anxious and uneasy. No notice was taken of the matter in any of the Roman Catholic Churches yesterday.

Salt Lake, Nov. 15.—A writ of Habeas Corpus has been served on the U. S. Marshal to bring Brigham Young before Chief Justice White on the 7th. Eighteen indictments for polygamy have been found by the grand jury in Idaho against the Mormon residents of Franklin, Idaho.

San Francisco, Nov. 16.—Pools were sold at the Lick House on the deferred four mile race at about the same averages as heretofore.

Washington, Nov. 16.—Blegario the chief of the Temecula Indians is here accompanied by an interpreter. He has had an interview with Secretary Chandler, and asked immediate relief for his band recently ejected from the Temecula ranch by the Sheriff of San Diego County in execution of the judgment of the Court. He claims that his band so ejected consists of 800 persons. Secretary Chandler expressed much interest in the case and promised to do all that he could. He then explained that the adjustment of the matter did not rest with the department alone or mainly, but will require the action of Congress.

San Francisco, Nov. 16.—Weather is unsettled and the rainy season appears to have commenced in earnest.

All this afternoon there has been a heavy rain. There has been slight advance in prices of several leading stocks: Ophir to-day 37 1/2; B. & B. 34 1/2; Con. Va., 25 1/2; G. & C. 14 1/2; Savage 66; Cal., 53 1/2; Overman 43 1/2; Jacket 65; Point 27.

Gold in New York 114 3/4 and 114 1/2. Greenbacks in San Francisco 86 1/2 and 87 1/2. San Bernardino, Nov. 18.—A few days ago a party of Mexicans attacked a station at Willow Springs 40 miles from Pansaint and proclaimed that they were Chavez and band. They tied up the station keeper, Wm. Riley, forced a teamster to go with them through the station, robbed a traveler of \$700, cleaned out Decker's train and left for the mountains. Riley's wife was not molested.

San Diego, Nov. 18.—The Ancon arrived yesterday and sailed for San Francisco to-day. The rain has been general throughout the State. Grass has started and farmers and stock men are happy. More ground has been plowed and grain planted than any previous year.

San Diego, Nov. 15.—At 25 minutes to 3 o'clock this p. m. a shock of earthquake strong enough to rattle buildings and alarm the people occurred in this city, lasting about thirty seconds. The vibration was from West to East. There was no injury done so far as we hear.

San Diego, Nov. 19.—Hon. R. C. McCormick is delayed here on account of his wife's health. Will probably leave for Arizona in a week.

Tucson, A. T., Nov. 16.—Gov. Safford and associates have here sixty five hundred

pounds of ore from their Pinal mine, recently discovered, for shipment to San Francisco. Tests show it to be worth one thousand dollars per ton and many of the chunks show native silver. One chunk weighing three hundred pounds is believed to be worth three hundred dollars.

U. S. Indian Inspector Kenble is making the most thorough inspection of Indian affairs of any officer that ever visited the Territory in that capacity, and if his recommendations can be made effective a decided improvement will soon appear on several reserves. He has already visited the Colorado and Papago Agencies, and will soon go to San Carlos.

General Kautz, Commanding Department of Arizona, arrived from Prescott last night and will remain here a few days.

Yuma, Nov. 15.—An earthquake shock of forty seconds duration and of much greater force than those heretofore reported visited us at 2:39 p. m. to day. The earth trembled or rather shook tremendously, clocks were stopped, and in some instances chimneys partly shattered to pieces, adobe walls were cracked badly. Three or four small waves succeeded the first great shock at intervals of 15 or 20 minutes.

Maricopa, Nov. 15.—At 2:41 this p. m. an earthquake shock was distinctly felt at this place for four seconds.

This is the way a St. Louis journal states it: "The advantage of having a dress-reform woman for a wife: Time, midnight; scene, a bed chamber; two pair of pants hanging over a chair; enter bloody-minded burglar; sees pants. 'Aha! curses on 'em! one man I would carve, two I will not face.' Exit burglar, in alarm. Burglar deceived; only one man in bed; other pants belong to the wife."

## MARRIED.

At the residence of the bride's parents, in Chino Valley, Sunday, November 14th, 1875, by Hon. H. H. Carter, Probate Judge, Mr. E. S. PENWELL, sonman of the Arizona Miner Office, to Miss JENNIE, daughter of Mr. and Mrs. George Banghart.

The marriage is the most beautiful and agreeable we fancy of all our earthly relations; in fact as we witnessed the ceremony that established this relation, we thought we would swap all the balance of our relations for such a relation, and as we drove back to town in the darkness, without any such relation, we mused, and such thoughts as these involuntarily pressed themselves upon us:

"The mountains mingle with the river,  
And the rivers mingle with the ocean;  
The winds of heaven mix forever  
With a sweet emotion.

"The mountains high heaven,  
And the waves clap one another,  
No sadder flower would be forgotten  
If it did stand its brother."

At the residence of the bride's parents, in Chino Valley, Wednesday, November 17, 1875, by Hon. H. H. Carter, Probate Judge, Mr. J. LLOYD, FISHER, bookkeeper and collector for the Arizona Miner, to Miss SALLIE, daughter of Mr. and Mrs. David W. Shivers.

Owing to the fact that this event transpired in the middle of the week we were obliged, very reluctantly, to forego the pleasure of attending the wedding, but return thanks for an invitation to do so. Seeing two of our staff drop off in a single week, we began to fear we should lose the devil and preman next, and in order to disengage them, we began "Wedlock is a ticklish thing," but it was no go, by some unaccountable and subtle influence we found ourselves in harmony with the prevailing spirit of the time and sang that they

"Like the lark, are so brimfull of gladness and love,  
The green fields below them, the blue sky above,  
That he sings and she sings and forever sing they,  
I love my love and my love loves me."

## NEW ADVERTISEMENTS.

### ATTENTION!

#### THE CLIPPER MILLS

Have established a new

#### LUMBER-YARD,

On the West side of Granite Creek.

Corner McCormick & Gurley Sts.,

IN PRESCOTT,

In any quantity from One Sack to 10,000 Pounds.

Where the proprietors, Messrs. WILEY & CASEY, will always have on hand all kinds of building lumber.

The Mills are situated eight miles south, in the finest body of timber in Yavapai County, and have

#### SEASONED LUMBER
